

Core of Knowledge (Laser/ILS Safety)

Laser Safety Training is changing!

LCS Academy is proud to announce the arrival of its new flagship online Core of Knowledge for laser/ILS safety training course!

The new course is aimed at all those who use laser or ILS/IPL systems in the medical or aesthetic field.

The course is based on our renowned and industry leading attendance course and has been developed to take advantage of the flexibility of online teaching.

The course uses a blend of video presentations with reading materials and exercises to reinforce the learning process.

Why choose LCS Academy's Online course?

- Fully compliant with current regulations and guidance.
- High quality course materials
- Online support for questions
- Delivered by expert lecturers
- Quality Assured
- Verifiable & Assessed training

Learners are able to follow the course at their own pace and at times convenient to themselves without the pressure of travel, inconvenient dates or the expense of accommodation!

Course participants also benefit from:

- 6 hours Continuing Professional Development awarded under the LCS Academy CPD Scheme.
- participation in the online forum which is moderated and supervised by Course Tutors
- ability to revisit areas of the course which they find challenging until they are confident with the learning outcomes
- gaining applicable knowledge they can utilise in protecting themselves and patients
